PROFESSIONAL SUMMARY

Frontend developer specializing in Next.js, React, and Tailwind CSS with passion for bleeding-edge technologies and craft-focused development. Experienced in building modern web applications using Next.js 15 App Router, shadcn/ui, Framer Motion, and design systems. Detail-oriented developer who values creating unique, high-quality solutions with clean architecture and pixel-perfect implementations.

EDUCATION

Mumbai University, Vishwaniketans’s Imeet	Mumbai,IND
B.Tech Computer Engineering	2020- 2024

EXPERIENCE

Software Associate Intern Bali hans	Oct 24 - Jan 25
Live Platform: Bali hans	

- Built responsive web applications using React with attention to detail, clean code practices, and focus on creating unique solutions rather than template-based approaches.
- Worked with Git branching strategies for version control and collaborated remotely in agile development environment with focus on craft and quality.
- Implemented designs from Figma with pixel-perfect accuracy, understanding design patterns and translating UI/UX requirements into functional code.

PROJECTS

Dum Chronicles - Premium Restaurant Landing Page

Tech Stack: Next.js (App Router), Tailwind CSS v4, Framer Motion, React Icons
Live URL: [Dum Chronicles](#)

- Designed and developed cinematic landing page using Next.js with creative diagonal section cuts, dark theme, and premium aesthetic demonstrating craft-focused approach.
- Implemented advanced animations with Framer Motion including scroll-based reveals, staggered text animations, hover effects, and smooth transitions throughout the site.
- Built reusable component library design system principles and CSS custom properties for maintainability.
- Created unique, detail-oriented solution focused on client's brand rather than using generic templates, showcasing understanding of design patterns

Scalence Academy - Coaching Institute Landing Page

Tech Stack: Next.js (App Router), Tailwind CSS v4, Framer Motion, React Icons
Live URL: [Scalence Academy](#)

- Developed a results-driven landing page with a unique scoreboard-based entry design
- Built interactive features like exam filtering, timeline, testimonials, and seat availability using React state
- Integrated WhatsApp enrollment flow with validation and ensured full responsive design

TECHNICAL SKILLS

Next.js Expertise: Next.js , App Router, Server Components, Static Generation, Performance Optimization
React: React 19, Hooks, Component Patterns, State Management, Modern React Practices
Styling: Tailwind CSS v4, CSS3, Design Systems, Responsive Design, Mobile-First Development
UI Libraries: shadcn/ui, Radix UI, Headless Components
Animation: Framer Motion, CSS Animations, Scroll-Based Animations
Deployment: Vercel, CI/CD, Production Deployments
